Microarray technology service

UvA/AMC
incl. BTW/VAT

Other
Excl. BTW/VAT

Expression/CGH Service

excluding array and consumables

Service	Specifications	Unit	UvA/AMC (incl. BTW/VAT)	Other (Excl. BTW/VAT)
Agilent	1x244K, 2x105K, 4x44K, 8x15K 1x1*10 ⁶ , 2x400K, 4x180K, 8x60K	per sample	€ 150	€ 170
NimbleGen/Roche	1x2.1*10 ⁶ , 3x720K, 12x135K	per sample	€ 150	€ 170
Affymetrix	GeneChip & MyChip	per sample	€ 175	€ 200
	GeneTitan human, mouse, rat	per sample	€ 100	€ 100

Bioinformatics service & support

Custom array design	prokaryote, standard	per design	€ 4.500	€ 6.000
	prokaryote, multistrain	per design	p.o.r.	p.o.r.
	next-generation sequencing data	per design	p.o.r.	p.o.r.
Experimental design/consultancy		per hour	€ 90	€ 125
Microarray data quality report		per experiment	€ 1.125	€ 1.500
Basic data analysis		per experiment	€ 2.625	€ 3.500
Advanced data analysis		per hour	p.o.r.	p.o.r.

Transcriptomics collaboration

MAD-IBU, as an academic expertise center in genomics, is an experienced partner in omics-based research projects. We invite you to inquire for collaboration possibilities.
